An enthusiastic computer science graduate with 23 months experience as Software Engineer and a deeper interest to acquire new skills. Worked for 5 months in Customer success team where I successfully transitioned a major client from development phase to Go-Live.

## Education

### **BACHELOR OF TECHNOLOGY | S.R.M INSTITUTE OF SCIENCE AND TECHNOLOGY, CHENNAI**

- Percentage: 84.91%

### **HIGHER SECONDARY SCHOOL | NAVRACHANA HR SEC SCHOOL SAMA**

- Percentage: 84.80%

### **SECONDARY SCHOOL | NAVRACHANA HR SEC SCHOOL SAMA**

- Percentage: 85.50%

## Skills & Abilities

### **COMMUNICATION**

- As a part of Customer success team, I was responsible to communicate directly with clients and understand any issues raised. Provide immediate fix and release the solutions in client environment.

### **LEADERSHIP**

- As a University Evangelist of HackerEarth and Campus Ambassador of GeeksForGeeks, I was managing a team of 8 people and looked after various aspects of tech event hosting which was successful in bringing a crowd of 100 students.

### **TECHNICAL**

- MS SQL, C#, JavaScript – React (beginner)

## Experience

### **SOFTWARE ENGINEER | ODESSA SOLUTION PVT. LTD. | 14/05/2019 - PRESENT**

- Improved performance of existing modules and automated the process by using Jobs /Tasks. SFTP solution designed for a major Japanese banking client was able to process 10,00,000 rows in 1min 10 sec compared to previous solution which only process 1,00,000 rows in 1 min.
- Product upgrades and deployments to client servers.

### **PROJECT TRAINEE | HINDUSTAN PETROLEUM CORPORATION LTD. | 01/07/2018 – 21/07/2018**

- Opportunity to work for India's Maharatna PSU. My project was to develop an android app from scratch for HPCL's employee's that will help them log their tour itinerary – either for official or personal journey.
